

REMARKS

Presently, claims 1 and 3-14 are pending in the application. The specification has been amended to overcome the Examiner's objection to the Title of the Invention. Claim 1 has been amended to incorporate the subject matter of original claim 2. Claim 2 has been canceled. Accordingly, no new matter has been added to the application by the foregoing amendments.

Specification

The Examiner has objected to the specification as having a Title of the Invention which is non-descriptive. Applicant has amended the Title of the Invention to read "Printing System Having a Plurality of Printer Drivers for Different Emulations." Accordingly, the Title of the Invention clearly indicates the invention to which the claims are directed. Reconsideration and withdrawal of the Examiner's objection to the specification are respectfully requested.

Claim Rejections – § 103(a)

The Examiner has rejected claim 1 under 35 U.S.C. § 103(a) as being unpatentable over U.S. Patent No. 6,567,175 B1 to Lee in view of U.S. Patent No. 5,960,166 to Brown, III et al. Although not necessarily agreeing with the Examiner, Applicant has amended claim 1 to incorporate the allowable subject matter of original claim 2. Thus, claim 1 is believed to be allowable. Claims 3-5 are allowable at least by their dependency on independent claim 1. Accordingly, the Examiner's § 103(a) rejection of claim 1 is moot. Reconsideration and withdrawal of the Examiner's § 103(a) rejection of claim 1 are respectfully requested.

Allowable Subject Matter

The Examiner has objected to claims 2-5, but stated that these claims would be allowable if rewritten to be in independent form and to include all limitations of the base claim and any intervening claims. Furthermore, the Examiner has allowed claims 6-14.

Independent claim 1 has been amended to incorporate the features of original claim 2. Thus, claim 2 has been rewritten in independent form to incorporate all features of the base claim

(original claim 1). Accordingly, independent claim 1 is allowable. Dependent claims 3-5 are allowable at least by their dependency on amended claim 1. Claim 2 has been canceled. Reconsideration and withdrawal of the Examiner's objection to claims 2-5 are respectfully requested.

Conclusion

In view of the foregoing amendments and remarks, Applicant respectfully submits that the Examiner's objections and rejections have been overcome, and that the application, including claims 1 and 3-14, is in condition for allowance. Reconsideration and withdrawal of the Examiner's objections and rejection and an early Notice of Allowance are respectfully requested.

Respectfully submitted,

HIROHIKO NAKAZATO
